**INFORMATION DISCLOSURE STATEMENT**

Dear Sir:

In connection with the above-identified application, Applicants hereby attach U.S. Patent Office form PTO-1449, including copies of the prior art references listed therein. Some of these references were cited in the PCT Search Report dated February 15, 2005 and the Written Opinion dated February 15, 2005 of the corresponding PCT patent application. Enclosed also are copies of the PCT Search Report and Written Opinion. It is noted JP2001-332851 has an English language counterpart, U.S. Publication No. US2004/0238211. A copy of the Publication is not being provided as the PTO waived the requirement on July 11, 2003. The claims in the present application are believed to be patentably distinguished over these references.

This information disclosure statement is being made pursuant to the duty of disclosure imposed by law and formulated in 37 CFR §1.56(A). No representation is made that the information thus disclosed in fact constitutes prior art or that it is the closest prior art, inasmuch as 37 CFR §1.56(A) relies on a materiality concept which depends on subjectivity.

The relevance to the pending U.S. patent application is that the references were cited in a foreign patent application on the same subject matter. However, no independent analysis of the references, the accuracy of the statement of the foreign examiner or the claims of the foreign application under the laws of the country or the United States relative to the subject matter claimed in the present application has been made; the present understanding of the contents thereof by the undersigned being based on the translation of the foreign examiner's comments submitted herewith.
